

MRWED Professional Development Options

MRWED Training and Assessment specialise in programs that support the growth of Learning and Development professionals globally. Whether your team is just starting out, or are seasoned veterans, we can tailor a program to build their skills and knowledge and improve the transfer of learning to your audience.

Through our proven “**participant centred**” approach, we will help your team engage the learners faster so you will save time, increase the retention of key concepts that in turn will reduce the amount of retraining required and improve the motivation of learners to be more accountable for their own learning.

If you are looking for training that is dynamic and fun, yet still enables your team to sharpen their skills and make the learning stick, then we have both accredited and non-accredited options for you to consider.

What are our students saying?

“I engaged MRWED to provide a short Train the Trainer course during our annual conference. Any trepidation I had about putting our varied group of trainers through the course vanished as soon as I met the trainer. Jason met the brief – to provide our trainers with useful techniques for revitalizing their own courses – perfectly. All of our trainers came out of the course buzzing with enthusiasm and raring to get to their next course! MRWED will definitely be at the top of our list for our next professional development session.”

MRWED Team at our End of Year function

More and more, regular on-going professional-development is a necessary activity for staff in training and development organisations. Aside from the compliance requirements, it represents an opportunity to build a team who are better equipped to support learners, create more dynamic experiences and be prepared for the new and emerging training and assessment needs in the VET landscape.

The programs listed in this catalogue are a small sample of the Professional Development options available with MRWED Training and Assessment. Whilst these are written as stand-alone programs, they could be combined to create a truly unique development program for you and your training and assessment staff. This way, you could mix and match from the catalogue to suit the specific needs of your organisation.

Additionally, we could create new, customised workshops to support the specific needs of your trainers and assessors or we could work with you to combine relevant professional development workshops with your existing training events. If the program that you are looking for is not listed here, give our dedicated Client Engagement Team a call to discuss your requirements.

MRWED Client Engagement are here to support you every step of the way. Our team will be able to provide you with a formal proposal, co-ordinate the enrolment process, work with your key stakeholders to understand the needs of your team and coordinate the design and customisation of the program (where required).

We know that learner engagement is critical to success and we look forward to working with you to create relevant and meaningful professional development options for your organisation.
